Mission

- Strive for **Prevention & Empowerment**.
- Create publications to train others that we would not otherwise reach.
- Design professional development training for under-served and disadvantaged communities that prepares them to take power and participate in decision-making processes.
- Prioritize helping our clients to reach their goals and do everything possible to assist them.
- Positively impact difficult to reach youth and adults populations (both males and females) in high-need and high-poverty communities: high school drop-outs, ex-offenders, inmates, gang members, and youth in foster care or homeless.
- Globally market our manuals to get them into as many hands as possible.
- Provide Train-the-Trainer (TtT)™ training and publications in **common sense** and **critical thinking skills**.
- Design training that includes the reality of **built-in consequences**; it teaches participants to think before they do something that cannot be changed, reversed, or erased.
